

ACT Releases SFI-Approved High Performance Clutch Kits for the 2011 Ford Mustang V6

Advanced Clutch Technology (ACT) has released a new Heavy Duty performance clutch kit and components for the 2011 Ford Mustang V6.

ACT's new clutch kit for the Ford Mustang V6 features a Heavy Duty Pressure Plate that incorporates hardened diaphragm fingers for decreased wear and provides a 43 percent increase in clamp force over the stock unit.

The ACT Street Clutch Kit combines the Heavy Duty Pressure Plate and a Performance Organic Street Disc. The disc features special-performance organic friction materials able to withstand increased heat and abuse, steel-backed linings for high-burst strength and modifications engineered for quicker shifting. The ACT Street Clutch Kit provides a moderate and consistent pedal feel, smooth engagement, significantly improved durability and increased torque capacity to 565 ft. lbs.

ACT Race Clutch Kits will hold 725 ft. lbs. of torque. Cerametallic Xtreme Discs are available in 6-pad, spring-centered and rigid-hub designs and are very durable while allowing for quick shifting. The Xtreme Discs are for high-power engines and recommended for track use only.
